Feb. 4, 1908.

REPORT OF
THE COMMITTEE APPOINTED TO REPLY TO THE OVERTURE FROM SELF-SUPPORTING SYNODS AND THE BOARD OF HOME MISSIONS.

A committee having already been appointed by the Woman's Board of Home Missions, with the object that it shall make a careful survey of the entire field under the Woman's Board, with a view to closing such schools as are no longer necessary, the Committee now reporting feels that the report of above committee must be awaited before an absolutely definite proposition looking to great enlargement of the work among peoples of foreign speech can be presented. In certain localities public schools have so improved, and such adequate provision for religious advantages have been made, that the Woman's Board may be able to withdraw from some fields.

While the Woman's Board can neither arbitrarily close schools carefully protecting the work already done, nor recommend any plan that will interfere with meeting all obligations for salaries, scholarships, or General Fund, yet; yet it heartily

RECOMMENDS to all auxiliary societies participation in work among the women and children employed in various industries and not provided with religious advantages,

IT FURTHER RECOMMENDS, That a year from the adoption of of this report, in April, 1909, the Woman's Board shall appropriate an amount equal to at least five (5) per cent of all its receipts from women's Auxiliary societies for work among foreign-speaking people. This per cent to be annually increased as the re-adjustment of the work will permit.

IT FURTHER RECOMMENDS. That in each presbytery in which such work shall be undertaken in conjunction with Presbytery there shall be a joint committee from the Presbytery and the Presbyterial Society, which Committee shall recommend to the Woman's Board the location of the work, selection of workers, and the kind of work to be done.

Gifts of the Women's Missionary Societies may go through the regular channels of the Treasury of the Woman's Board, provided the location and the kind of work shall be approved by the Board and the workers shall be commissioned by the Board. The kind of work to be recommended are Bible Readers, Missionary nurses, Kindergartners and Schools - mission, evening, industrial etc.

In view of the fact that the inauguration of enlarged work among foreigners will require a large ly increased number of trained workers, this Committee,

RECOMMEND, That a Committee be appointed by the Woman's Board to gather information in regard to the training of Bible Readers and Deaconnesses, and ro devise a plan whereby such workers may be trained.

ATLANTIC.

As we think of this widely extended ocean Synod, we seem to hear this year not only the continuous swash of the waves breaking upon its shore, but now a sort of low wail of sorrow as the tidings to the workers there of one very dear to us, as well as to the [illegible] of the Atlantic is not alone in bearing this loss to the rich [illegible] on all, of [illegible]ary [illegible]Alion has endeared [illegible] in heart and hand to the interests of the whole church.

[illegible] progress has been made in organization during [illegible] as to [illegible] in the future. Papers of great [illegible] and the [illegible] in connection with that of the Synod.

MARYLAND.

Parkod advance has also been made by this Synod so influential because within its bounds meets the Congress of the United States. New and very efficient workers have been brought forward in the city of Baltimore and elsewhere. But this Synod has lost for our sympathy, Miss A.L.Polk of Wilmington, Delaware, whose consecration in effort was exceptional, rests from her labors, and is deeply felt by all who knew her character.

COLORADO.

Perhaps this Synod bureau has done quite its share in sending to our Headquarters in New York city, two of its own most
Mrs Chas E Walker - Mrs D E Finley
noble workers. We thank Colorado for sending us such workers to be
felt among all our Societies. It is encouraging to find that women in so many of the church societies are organizing Mission Circles.

(4)

COLUMBIA.

Perhaps the sisters there do not realize how truly near to us we consider them. We know that under very difficult circumstance they are endeavoring to help us in this school-department.

(5)

DAKOTA.

This name is almost losing its association with one of the leading tribes among the Aborigenes of that part of our land. There are Indian churches there now, in charge of educated Indian pastors. The mission at the Sisseton Agency continues to exert an elevating influence among the Sioux. The women of our Presbyterian churches have many claims in support of their own gospel privileges, but do not forget the freedmen, nor other classes elsewhere needing the same blessing as themselves.

ILLINOIS.

Every Presbytery is now organized for work, that of Cairo bringing up the rear, April 25, 1855.

Regret is expressed by the Synodical Secretary that the apportionment of the recent debt was not fully met. Happily now there is not so much occasion to make up for this lack of service. Let us rather press forward the more heartily into calls for building and other work, such as the debt prevented our doing during the past year.

A legacy of $1,000 from Mrs Mary L Collins of Quincy 1st church was a welcome contribution to our funds.

(7)

INDIANA.

Some one visiting in this Synod reports its women as better organized for work than in almost any other. Truly the gain has been marvelous in this direction, as the Synodical Report testifies officially. Every Presbytery but one has its full complement of officers.

(8)

IOWA.

Perhaps the women of this Synod do not themselves realize the advance they are making in systematic methods of work as well as in increased contributions to the cause of Home Missions. Iowa is so beautiful a State, it is delightfully satisfactory to have all things done in keeping with its exuberance of natural capabilities for progress in agriculture, arts and science.

KANSAS.

This can hardly now be called a border-state. As with Nebraska its line of rain-water fall is receding to the West, so as it thus receives more natural showers, so may it prove more and more a fountain of blessing for the benefit of others.

Its socie ies give a good and encouraging report.

KENTUCKY.

We greet the women of this Synod with special welcome, last but not least to enter our circle, which is now complete. Now may the Spirit of the Lord, as with electric power weld us all into such loving as well as organic union that He may use us the more perfectly in His service, while we prove to him indeed a crown for his rejoicing.

MICHIGAN.

We thank the Secretary of this Synod for kindly commendation of the "Blanks" sent out for Annual Reports. No one really needed them less than she. It was in part from her own method of stating results that we have learned what form to offer to others. Michigan is one of our earliest friends, and we still turn to the women there sure of loving co-operation. From one of their number living for a time in Utah, we have received much valuable information and advice.

MINNESOTA.

Meeting as we do this year within the limits of the Synod of Minnesota, we can but express our thanks to our dear friends here and our appreciation of the cordial hospitality received and of the efficient way in which preparations have been made for our Annual Meeting. We trust that best blessings may rest upon the women of the churches here and that the success of their efforts for Home Missions may keep step with the unexampled growth of their cities and towns.

MISSOURI.

From Kansas city, on the western border of this great Synod we hear of the Annual Meeting of the Board of Missions of the South West as being one of exceeding interest. Missouri is doing well for Home-Missions beginning to repay to "regions beyond" the debt for help received toward the establishment of its own character.

NEBRASKA.

Each of the five Presbyteries is organized for work, having Officers duly elected.

One pleasant feature at the Synodical Meeting was a sale of various articles, bringing into the Treasury $140.

We thank its "Christian Hour" for giving no uncertain sound in favor of our Home Mission work!

New JERSEY.

Not out of the United States by any means as relates to this Home Missionary work. Its Synod first elected a Woman's Synodical Committee of Home Missions, an action subsequently endorsed by the General Assembly, and taken now by every Synod of the Presbyterian Church. Let New Jersey still keep to the fore if she will. There are heights and depths in this country yet to be explored and pre-empted for the Lord Jesus Christ.

OHIO.

The Secretary writes, "There is evidently great advance in our Synod, not only in interest in the work, and liberality towards it, but in organization, in system and in reporting funds."

We too at Head-quarters note this improvement, and praise the Lord for raising up in Ohio as elsewhere for the work to be accomplished, women of rare culture, intelligence and zeal, each in her own place, ready to obey the direction, "Whatsoever He saith unto you, do it."

NORTH DAKOTA.

This is a new name within the past year, among the Synods, but its women under these changed auspices are ready to continue in service. We regret some misunderstanding at first as to which of their number were regularly appointed by the Synod, but are encouraged to know of so many ready we believe to work for Home-missions as the way may be opened before them.

PACIFIC.

It is truly encouraging to receive a report from the Pacific slope, showing that 36 Societies and Bands are at work, more in number than ever before. The eyes of our co-laborers look usually toward the West. Those in this Synod are of necessity turned back to regions to the East of them, and Utah more particularly feels the advantage of the rebound.

TENNESSEE.

Out of its mountain fastnesses out of i's own great need of help to meet the pressing calls within its own territory, Tennessee yet sends us very encouraging contri utions. Maryville College continues to educate well qualified workers for Missionary and other fields.

TEXAS

The women in this immense Synod are quietly becoming more thoroughly organized for Home-Mission effort. Hand can be joined to hand even by correspondence very lovingly, although it is dif ficult on account of distance and expense to come together as often as in the more cl sely populated Synods.

UTAH.

The schools here have wonderfully prepared the way for the preached gospel. While we mourn the death of Rev. Geo W.Leonard, and other workers,there is special encouragement on account of the manifested power of the Holy Spirit to press forward as never before in Mission work among the Mormons. These days of golden opportunity are quickly passing by. More than eleven new teachers should be sent out this fall,to fill vacancies,and occupy new stations.

WISCONSIN.

From its every Presbytery have come contributions to our Treasury. Alphabetically it ends the list,but we recognize in fact no such distinction,but consider ourselves not a line but a circle now standing closely connected hand to hand. Let our loving endeavor be only this "who shall be most ready to obey our Master's will?"
